

Alveena Khan

Full Stack Developer | AI & Data Science Student | Python & Web Development Enthusiast

alveenasaleemkhan086@gmail.com | Bhopal, India | [linkedin.com/in/alveena-khan-0bba52392](https://www.linkedin.com/in/alveena-khan-0bba52392) | github.com/alveenasaleemkhan086-create

EDUCATION

B.Tech. Computer Science & Engineering – Artificial Intelligence & Data Science

Sagar Institute of Science and Technology (SISTec)
2024–2028

PROJECTS

Student Placement Prediction System

Tech Stack: Python | Machine Learning | Django | HTML | CSS | Database

- Built a web application that uses machine learning to predict student placement outcomes.
- Integrated prediction functionality with Django, database storage and a web interface.

Library Management System

Tech Stack: Python | Flask | MySQL | SQLAlchemy | HTML | CSS

- Developed a database-driven system to manage books, users and issue records.
- Implemented due-date tracking and database operations using Flask, SQLAlchemy and MySQL.

Online Testing System

Tech Stack: Python | Django | HTML | CSS | JavaScript | Database

- Built an online testing platform with authentication, questions, tests and result tracking.
- Integrated database-backed test content and user result/history management.

Product Management System

Tech Stack: Python | Django | HTML | CSS | JavaScript | Database

- Developed a web-based product management application with database-backed CRUD operations.
- Implemented create, view, update and delete workflows through a Django interface.

Portfolio Website

Tech Stack: HTML | CSS | JavaScript

- Created a personal portfolio showcasing projects, skills, certifications, education and contact information.
- Designed a modern, responsive UI with clear navigation and structured content.

SKILLS

Programming Languages: C++, Python, SQL

Web Development: HTML5, CSS3, JavaScript, Flask, Django

AI / Data Science: Artificial Intelligence, Machine Learning, Data Science, NumPy, Pandas, Scikit-learn, Data Analytics, Data Visualization

Database & Core: MySQL, DBMS, Data Structures & Algorithms, OOP

Tools: Power BI, Excel, XAMPP, Git, GitHub, VS Code

CERTIFICATIONS & LEARNING

- NPTEL – Python with Data Science
- Microsoft Learn – 7 learning pathways and achievement badges in AI and technology
- Cisco Networking Academy – Data Analytics Essentials
- Cisco Networking Academy – Apply AI
- Cisco Networking Academy – Introduction to Modern AI
- Additional practical learning in Python, Web Development, SQL, DBMS, Data Analytics and Machine Learning

SUMMARY

B.Tech CSE-AI&DS student interested in Full Stack Development, Artificial Intelligence and Data Science, with hands-on experience building academic and personal projects using Python, web technologies, databases and machine learning. Focused on building functional web applications and data-driven solutions while continuously developing technical skills.
